

# LANDS WILL NOT BE IRRIGATED

Secretary of Interior Issues Statement Regarding Land Under "Fourth Lift."

HOMESTEAD LAW APPLIES.

Upon Recommendation of Reclamation Service Big Tract to be Opened For Settlement.

Washington, D. C., Nov. 2.—A grave misapprehension has arisen regarding the character of lands near the Minidoka project, Cassia county, Idaho, which were recently restored to entry by the secretary of the interior.

The lands were restored because no plans are being made to irrigate this area. Any entry made upon the supposition that these lands would be under what is known as the "Fourth Lift" of the Minidoka project, is founded on an absolute misunderstanding, because construction of the fourth lift has been definitely abandoned.

Those who have made homestead entry on the area restored must live upon the land, cultivate and improve it in accordance with the terms of the homestead law and have no reasonable ground to anticipate that water will ever be furnished for irrigation.

Homesteaders who do look these lands in the hope that the operations of the reclamation service will enable them to comply with the homestead law are doing so on an entirely unfounded supposition, and they must necessarily perfect their entries without the assistance of any water supply from the Minidoka project.

#### RESTORED FOR ENTRY.

Approximately 544,000 acres of land which was withdrawn in connection with the Minidoka irrigation project, Idaho, have been restored to the public domain by the secretary of the interior. The area is involved in a segregation of lands to be included in a Carey act project under the application of the state of Idaho. The restoration covers lands in townships 5 to 19 north, ranges 29 to 40 east.

This action was taken by the department for the reason that there will now be available from the reclamation fund sufficient money to meet the moneys necessary for the development of the project, and upon the petition of the governor and the state land board of the state of Idaho, the secretary of the interior decided to withdraw from the project if the state found it practicable to take it up under the Carey act.

The restoration became effective in such a manner as to protect the segregation made upon the request of the state.

#### SUBJECT TO SETTLEMENT.

The secretary of the interior has restored to entry the following described lands in Idaho upon recommendation of the reclamation service, as being no longer necessary to the interests of the Payette-Boise project:

Township 23 south, range 46 east, all section 18, east half of section 21; all section 22, northwest quarter section 27; all sections 28 and 33.

Township 24 south, range 46 east, north half of section 4; west half of section 5; all section 6 and north half of section 7.

These lands will become subject to settlement and entry upon such dates and after such notice and publication as the secretary of the interior may prescribe.

#### IT IS A WONDER.

Chamberlain's Liniment is one of the most remarkable liniments ever produced for the relief of rheumatic pains, and for lame back, sprains and bruises. The quick relief from pain which it affords is alone worth many times its cost. Price 25 cents, same size 50 cents. For sale by all druggists.

#### RED CROSS STAMPS.

The American Red Cross, whose Christmas stamps are a familiar feature of the holiday season in every community of the United States, is the greatest relief organization in the world. The sale of Christmas stamps, which last year amounted to more than \$150,000, is but an incident in the sum of its extensive activities. It is the accepted almoner of the American people when any community suffers from an overwhelming calamity.

Since its organization under a special act of Congress in January, 1905, the Red Cross has expended an average of more than \$1,000,000 a year in relief operations. The foundation upon which this great organization is established is found in the charter given by act of Congress which, in defining the purpose of the Red Cross, says:

"To furnish voluntary aid to the sick and wounded of armies in time of war and peace, and in a system of national and international relief in time of peace, and apply the same in mitigating the sufferings caused by pestilence, famine, fire, floods, and other great national calamities, and to devise and carry on measures for preventing the same."

It will be noted that Congress intended that the Red Cross should not confine itself to the relief of the suffering caused by calamity but that it should devise and carry on measures for preventing calamity so far as practicable. It is under this provision of its charter that the organization is undertaking its fight against tuberculosis.

#### GOOD COUGH MEDICINE FOR CHILDREN AND GROWN FOLKS, TOO.

"We could hardly do without Chamberlain's Cough Remedy," says Mrs. Flora Desplain of Blvd. Ky. "I found it to be so good for the group and have used it for years. I can heartily recommend it to every mother and group of children and grown folks, too. The above shows the implicit confidence that many mothers place in Chamberlain's Cough Remedy, a confidence based on the years of experience of the manufacturer. No one need hesitate to use this remedy for it contains no chloroform, opium or other narcotics and may be given to a child as confidently as to an adult. For sale by all druggists."

#### TOWNSHIPS APPROVED.

The government has approved the 18 townships chiefly in Garfield county, which were submitted by the State of Utah last year, according to notice received by Gov. Spur from the department of the interior today.

#### MRS. JOHN REED APPEARS.

Pleasant Surprise for Orpheum Fans at Yesterday's Matinee.

At the Orpheum matinee yesterday a pleasant surprise greeted the audience in the appearance of Mrs. John Reed, who in an "extra" introduced between

the second and third numbers on the regular program, gave two character readings, or rather recitations, the first in the way of an Irish monologue, and the second a negro character sketch, in both of which Mrs. Reed delighted her audience. For several years Mrs. Reed

has been heard at social and club affairs in readings varying from serious to humorous, and comprising both dialect and other selections in all of which she has scored distinct success; and because of this and the suggestion of friends Mrs. Reed was induced to make her gift more widely known, in the opportunity offering in the Orpheum circuit, her "tryout" yesterday giving sufficient evidence of her gifts to insure her success in a larger field. Her appearance while marked at first with a slight tinge of nervousness, was as usual prepossessing, and won ease and confidence as she became interested in

her work. The dialect was convincing and her reading surprisingly natural and finished for a first stage performance. The first selection was anything a little too long but could be arranged to be cut perhaps within the time used in the interpolation of the Irish refrain, which, while helping

the naturalness and human interest, still makes the sketch a little lengthy. So many lead interests in things are gone in monologues even by professionals that it seems there can be nothing but easy swimming for Mrs. Reed should she elect to spend a season with the Orpheum circuit.

#### EXCURSIONS OGDEN RACES.
